

# Cannon Hill station accessibility upgrade

WORKS NOTICE

## Night and after hours works - platform and roof works

Mid-June 2021

As part of the Cannon Hill station accessibility upgrade, Queensland Rail will undertake platform and roof works on **Saturday 19 and Sunday 20 June 2021** (weather and construction conditions permitting).

For the safety of our customers and construction workers, these works have been scheduled over a planned track closure when there is no rail traffic and the overhead power is switched off.

Nearby residents may experience some noise associated with construction activity, heavy machinery and truck movements. Mobile lighting towers will be used during the night works.

Every effort will be made to minimise disruption and we thank you for your patience while we build you a better Cannon Hill station.
