Cannon Hill station accessibility upgrade

WORKS NOTICE

Night and after hours works - scheduled track closure

Saturday 21 to Monday 23 November 2020

As part of the Cannon Hill station accessibility upgrade, Queensland Rail will undertake works from **2am Saturday 21 to 2am Monday 23 November** (weather and construction conditions permitting).

Works will involve partial platform raising activites. Nearby residents may experience some noise associated with construction activity, the operation of heavy machinery and the movement of vehicles around the station precinct.

Traffic management will be in operation on Barrack Road to support track maintenance. The level crossing will be closed to pedestrians and alternative transport will be available to move pedestrians around the closure. Motorists and pedestrians are requested to observe the changed traffic conditions and follow the instructions of traffic control.

For the safety of workers and to maintain rail services, these works will occur during the scheduled weekend track closure on the Cleveland line, when buses will replace trains.

Every effort will be made to minimise disruption and inconvenience as we work to improve your station.

Overview of night and after hours works

overview of hight and after hours works		
Location	Dates and hours of work	Type of work
Cannon Hill station precinct and rail corridor Northern carpark closure	2am Saturday 21 to 2am Monday 23 November (during scheduled track closure)	 Station upgrade works involving: partial platform raising works at assisted boarding points on platform 1 and 2 operation of heavy machinery and trucks with flashing lights and reversing beepers use of powered tools and hand-held equipment movement of personnel and vehicles around the station precinct and rail corridor.
