

# Auchenflower station accessibility upgrade

PROJECT UPDATE – JANUARY 2021

The Auchenflower station accessibility upgrade is part of the State Government's investment of more than \$500 million to upgrade stations across the South East Queensland network, making them accessible for all customers.

## Project progress

Works recently undertaken at Auchenflower include:

- site excavations
- footing works for new waiting shelters
- geotechnical investigations for new retaining structures, lifts shafts and bridge structures
- traffic changes near hospital carpark and closure of section of footpath and pedestrian crossing, Lang Parade (pictured at right)
- ongoing works for new footbridge and lift foundations.

## Upcoming works

In the coming weeks, the following activities will be undertaken:

- overhead line and track works (late January)
- piling (foundations) for platform and bridge structures
- stormwater and sewer excavations
- platform works
- ongoing station design activities (off-site).

Please take care around the work zones.

## Construction impacts

During works, construction activities may involve:

- changed parking and traffic conditions for safety
- noise associated with heavy machinery
- temporary changes to access paths throughout the station precinct and surrounding areas
- relocated ticketing equipment and platform facilities
- increased vehicle movements near works
- mobile lighting towers for night works.

Normal working hours are 6.30am to 6.30pm, Monday to Saturday.

The local community will be given advance notification of construction activities likely to cause impacts, including after hours work (nights, Sundays and public holidays, if required).

Thank you for your patience and cooperation as we build you a better Auchenflower station.
