

Auchenflower station accessibility upgrade

WORKS NOTICE

Night works

Monday 25 to Friday 29 April 2022

As part of the Auchenflower station accessibility upgrade, Queensland Rail will undertake **night works from Monday 25 to Wednesday 27 April (9.30pm to 6am the next day) with an early morning concrete pour scheduled from 3.30am on Friday 29 April.**

For safety, these works can only be undertaken after hours when rail traffic is reduced and there are fewer people around the station and hospital precincts.

Traffic management may be required to support site access, concrete pumping and other construction activities. Motorists are advised to follow the instructions of the traffic controllers and drive to the changed conditions.

Residents near the station may experience noise associated with concrete pumping, truck movements and construction activity around the work zone.

Every effort will be made to minimise disruption and we thank you for your patience during these important works.

Overview of works (weather and construction conditions permitting)
