

Auchenflower station accessibility upgrade

WORKS NOTICE

Night and after hours works

February and March 2022

As part of the Auchenflower station accessibility upgrade, Queensland Rail will undertake night works (6pm to 6am the next day) over five weeks in **February and March** to facilitate the demolition of old station infrastructure.

On either side of this extended period of night works will be **around-the-clock weekend works** during scheduled track closures, on the weekend **12 and 13 February** and again on **19 and 20 March**.

For safety, these works can only be undertaken when the track is closed or after hours when rail traffic is reduced and there are fewer people around the station precinct.

Lane closures with traffic management may be required at times to support site access, concrete pours and other construction activities. Motorists are advised to follow the instructions of the traffic controllers and drive to the changed conditions.

Residents near the station may experience noise associated with demolition works, concrete pours, construction activity and the operation of cranes, heavy vehicles and trucks around the work zone. Every effort will be made to minimise disruption and we thank you for your patience during these important works.
