

# Cannon Hill station accessibility upgrade

WORKS NOTICE

## Weekend and after hours works (during track closure)

5am Saturday 18 to 8pm Sunday 19 June 2022

Queensland Rail will undertake weekend and after hours works, associated with the Cannon Hill station accessibility upgrade from **5am Saturday 18 until 8pm Sunday 19 June 2022** (weather and construction conditions permitting).

Activities include platform and shelter works, concreting, fencing installation and landscaping. For safety, these works have been planned during a scheduled track closure when there is no rail traffic and the overhead power is switched off.

Parts of the station's carparks will be unavailable from 6am Saturday 18 until 7pm Sunday 19 June and the Barrack Road level crossing will be closed to traffic during works. Traffic management will be in operation with a traffic diversion around the works. Motorists are requested to follow the instruction of the traffic controllers and drive to the changed traffic conditions.

The station's footbridge (and lifts) will be available for cross-corridor pedestrian access.

Residents near the station may experience some noise associated with construction activity and the operation of cranes, trucks and equipment around the work zone. Every effort will be made to minimise disruption and we thank you for your patience during these important works.

### Overview of works

Location	Dates and hours of work	Type of work
Cannon Hill station precinct and rail corridor	<b>5am Saturday 18 to 8pm Sunday 19 June 2022</b>	Associated station upgrade activities, involving:
