

# Cannon Hill station accessibility upgrade

PROJECT UPDATE – JUNE 2021

The Cannon Hill station accessibility upgrade is part of the State Government's ongoing investment of more than \$500 million to upgrade stations across the South East Queensland network, making them more accessible for customers.

## Project progress

The following works have recently been carried out at Cannon Hill station:

- the new station footbridge opened for public use (stairs only) following installation of all new footbridge stairs
- installation of security cameras and temporary lighting on the new footbridge
- removal of the old timber and steel footbridges
- demolition of the footpath in the northern carpark
- installation of all new lift shafts.

## Upcoming works

Customers and the local community can expect to see the following activities over the coming weeks:

- modifications to overhead lines and removal of steel masts
- demolition of old stair and footbridge footings
- platform works including asphaltting
- installation of sheeting to platform two canopy
- ongoing modification works to the ticket window, station toilet and station entrance
- ongoing lift installation works.

## Construction impacts

During the station upgrade, changes due to construction activities may include:

- changed parking and traffic conditions for safety
- noise associated with heavy machinery
- temporary changes to access paths throughout the station precinct and surrounding areas
- increased vehicle movements near works
- the use of mobile lighting towers (for night works).

Normal working hours are 6.30am to 6.30pm, Monday to Saturday.

The local community will be given advance notice of construction activities likely to cause impacts, including after hours work (nights, Sundays and public holidays).

We thank you for your patience and cooperation as we build you a better Cannon Hill station.
