

# Auchenflower station accessibility upgrade

PROJECT UPDATE – MAY 2022

The Auchenflower station accessibility upgrade is part of the State Government's ongoing investment of more than \$500 million to upgrade stations across the South East Queensland network, making them accessible for all customers.

## Project progress

Works recently undertaken at Auchenflower include:

- demolition of old station building
- opening of station lifts servicing all platforms
- platform 2/3 raising and paving works (temporary closure mid-May) – pictured
- fit-out of new ticket office (ongoing)
- bridge abutment works (ongoing) in preparation for new pedestrian footbridge between Lang Parade and Ridley Street/Eagle Terrace.
- fabrication of footbridge (off-site).

## Upcoming works

In the coming months, customers and the community can expect to see the following activities:

- continuing bridge abutment works – new footbridge
- continuing fit-out of new ticket office
- upgraded pedestrian crossing (Lang Parade) – rescheduled to June due to weather
- installation of new pedestrian footbridge by crane – rescheduled to future track closure due to weather.

Please take care around the work zones.

## Construction impacts

During works, construction activities may involve:

- changed traffic conditions for safety
- temporary changes to access paths throughout the station precinct and surrounding areas
- relocated ticketing equipment and facilities
- station carpark closed for construction
- increased vehicle movements near works
- noise associated with heavy machinery
- mobile lighting towers for night works.

Normal working hours are 6.30am to 6.30pm, Monday to Saturday. The local community will be given advance notification of construction activities likely to cause impacts, including after hours work (nights, Sundays and public holidays, if required).

Thank you for your patience and cooperation as we build you a better Auchenflower station.
